Welding			11 credit hours								

Credit is granted by the college after the student passes the next higher-level class in their course sequence. Senior Career/College Tech Prep instructors certify the competencies achieved through use of the Career Passport issued to Career/Tech Prep Completers. Students must be continuing in a related college program in order to be considered for advanced standing, i.e. Early Childhood Education to Early Childhood Education. The colleges make the final determination on credit to be granted toward their Associate degree program.
