CAD Designer/Drafter Technician

We have a full-time position available for a computer-aided designer/technician. The individual in this position will use SolidWorks to aid a team of engineers in creating part and assembly prints, design equipment, and create engineering change notices. Employer will provide SolidWorks training. Applicants must be a high school graduate with experience in computer-aided design or have an associate's degree in computer aided drafting.

Starting Wage Range

\$14-\$16, depending upon qualifications.

If interested please contact our Engineering Manager, Jim Collene, at Jim.Collene@mansfieldec.com

Engineering Technician

We have a full-time position available for an engineering technician. The position requires fabrication skills and the ability to work with a team of engineers and other engineering technicians. Applicant must have some experience with equipment and tools used to produce fabricated metal parts, prototypes, jigs and fixtures. Applicant will also need knowledge of or desire to learn how to read blue prints, measure parts and operate equipment such as a vertical mill, horizontal lathe, and mig and tig welders. Basic understanding of electronics is a plus but not required.

Starting Wage

\$14 per hour

If interested please contact our Engineering Manager, Jim Collene, at Jim.Collene@mansfieldec.com
